

# **Data T2**Large screen high-performance terminal Designed for field work environment

iData T2 is a large screen high-performance terminal with 4G network, which assure a faster data transmission rate and low network delay. With the help of 6.21-inch large HD screen, the device interaction become much easier. T2 is the dedicated practical mobile terminal for staffs who work outdoors environment, such as large-scale ports, exhibition arenas, etc.

#### 4G WAN, more jobs can be done quicker

4G WAN features faster data transmission which makes it better than general Wi-Fi. The users can enjoy smoother network experience outdoors even without Wi-Fi connection, they can make on-line calls, video calls, and data download, etc.

#### 6.21" large HD screen, the efficiency increases dramatically

More information can be displayed within the large screen, which lowers the mistouch rate during interaction with APPs. The efficiency of workers increase significantly in both reading or information input.

#### Powerful performance, ultra-long product lifespan

Equipped with octa-core 2.0GHz processor and 64GB(ROM)+4GB(RAM), T2S not only runs faster to support multitasking demand, but also assures a longer lifespan to survive product upgrade for future business.
